Thanks, I understand from Suzanne that it's going to be posted to the web. If/when you receive confirmation that's happened could you please let me know so I can send the link to Bruce?

Kelcey:

Thanks, I took the call from Bruce and just wanted to pass along that he's stated that if he doesn't receive a copy of this Work Plan today, he's going to report that EPA refused to provide the document. He sounded very frustrated because, prior to calling me, he said he contacted Press@epa.gov and called the hotline.

As background, apparently someone in the public meeting in Durango requested this report and stated – during the meeting – that an EPA rep said the Work Plan was not publicly available. Bruce asked Shaun about this during Monday's press call and Shaun stated (a) the document was public and (b) he would make sure Bruce got a copy.

I'm a new media officer so I don't know how these things are generally handled but wanted to make sure you were aware of his plans if he doesn't receive this today.

Thanks,

Laura Jenkins

We are looking into the best way to answer this request, and others that have also requested this – Suzanne is discussing with 9th floor right now so stay tuned please – thanks Kelcey

Bruce also offered to come here and pick up a copy if it's not available electronically.

Is it available so we can send a link to Bruce Finley?
